

# ATAL INCUBATION CENTRE SELCO FOUNDATION

## Incubating Technology Innovators and Enterprises for Sustainable Development in the North East India

AIC-SELCO Foundation is a joint initiative of SELCO Foundation, a not-for-profit entity and Atal Innovation Mission (AIM), NITI Aayog, Government of India. It is situated at the Don Bosco Technical School campus, Maligaon, Guwahati, Assam.

It is acting as a one-stop incubation cum innovation centre in Northeast India and acting as a catalyst to achieve the Sustainable Development Goals, especially focusing on integrating “affordable and clean energy” (SDG7).

The incubation centre facilitates to provide a level playing platform for the grassroot innovators and entrepreneurs to build technology based enterprises that delivers need based solutions to the rural communities.

### The incubation program aims to

Develop green technologies that can bring about transformative change in the realms of climate and social sustainability, creating assets, opportunities, services, and investment for the poor with long-term positive environmental and social impacts.

**FOCUSED  
sectors**
